

Bridge all your departments and day-to-day operations with Educampus.

Extract the intelligence out of information lying across your institute and discover the scale of efficiency at your desktop.

Now

- Redundant data entry points & rigorous paperwork
- No real-time information of the total outstanding and defaulters
- Manual processes cause unwanted delays in processing reports
- Multiple entries of same information in different records decrease efficiency
- Complex ways of scheduling lectures takes longer time to plan
- No transparency for parents who remain unaware of activities, results & general performance

After Educampus

- One time entry of key information resulting in minimal paperwork
- Integrated data points would provide real-time status thereby saving cost and time
- Workflow automation ensures generation of reports within stipulated time
- Avoid duplicate entry of data/ reduce errors and increase efficiency
- Automates the scheduling based on combination of classrooms, lecturers, students and subjects
- System generated alerts to inform parents on availability of results, contact sessions etc
