Client Track Record

Quintegra's management team comes with extensive experience at large IT services and product firms with a proven track record of building and managing large offshore teams

Here's what some of our clients have to say about us:

"What sets Quintegra and its people apart is a highly focused and efficient methodology that never fails to deliver; in-time and within-budget."

- CIO of one of the world's largest insurance product companies

"Quintegra provided us with innovative solutions to our demanding requirements, while giving us enough flexibility and scalability to achieve our mid and long term targets."

- VP of a leading investment firm

"At the end of your day, you get done what needed to get done and it is absolutely impressive. I could not be more proud of what you were all able to accomplish here with all of the roadblocks that have been encountered along the way. Thanks again for your outstanding efforts."

- Project Manager of the world's recognized leader in communications

"I think your team has done a truly remarkable job. You have overcome so many obstacles, in such a short period of time, and become a highly efficient, inter-continental team!"

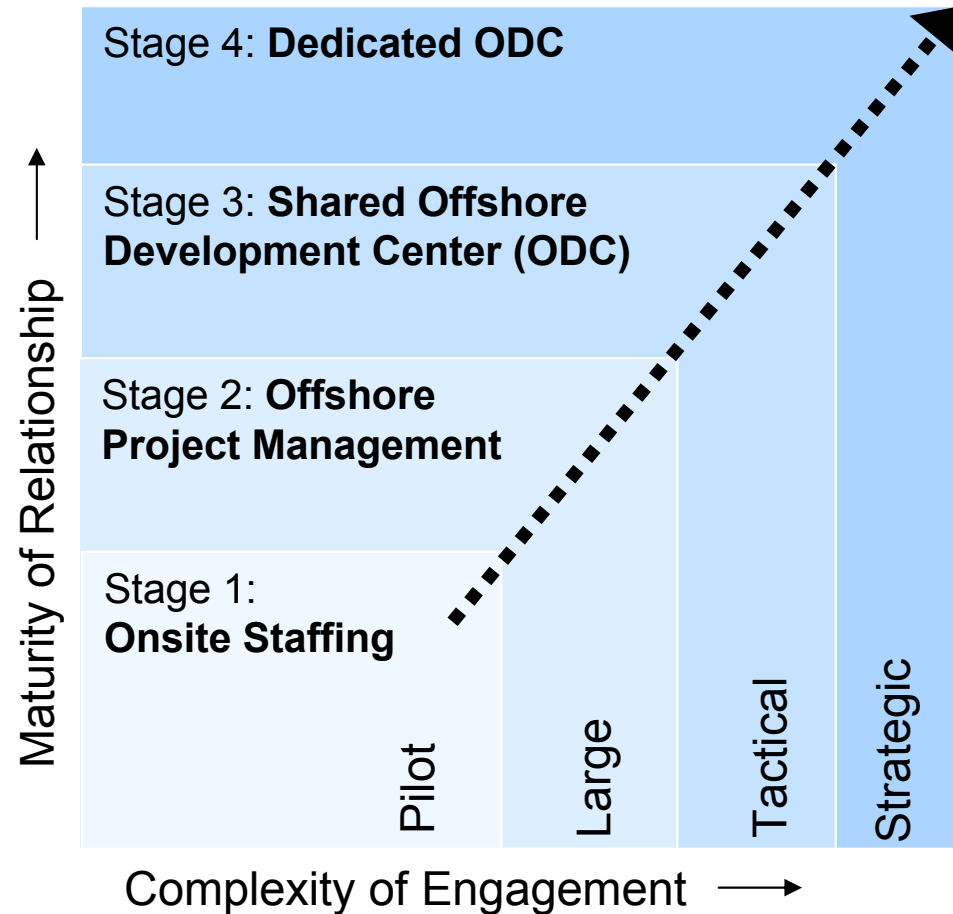

- Development Manager of the leading provider of telecommunication software solutions

Clients back their words with deeds – repeat business averages 85%

Business Models

- ❑ **Dedicated ODC** – Dedicated offshore resources that act as virtual extensions of clients' own development teams and exclusive development facility for critical projects / product co-development
- ❑ **Shared Offshore Development Center (ODC)** – Project-based offshore execution which combines fast time to start, convenient terms, and simple scalability
- ❑ **Offshore Project Management** – Greater degree of offshore execution with onsite presence for implementation, support and co-ordination
- ❑ **Pilot Project** (Proof of Concept) - e.g. onsite staffing with minimal offshore support

Clients can work through flexible engagement / business models with Quintegra and be assured of greater value as the relationship progresses through each stage

ODC Approach

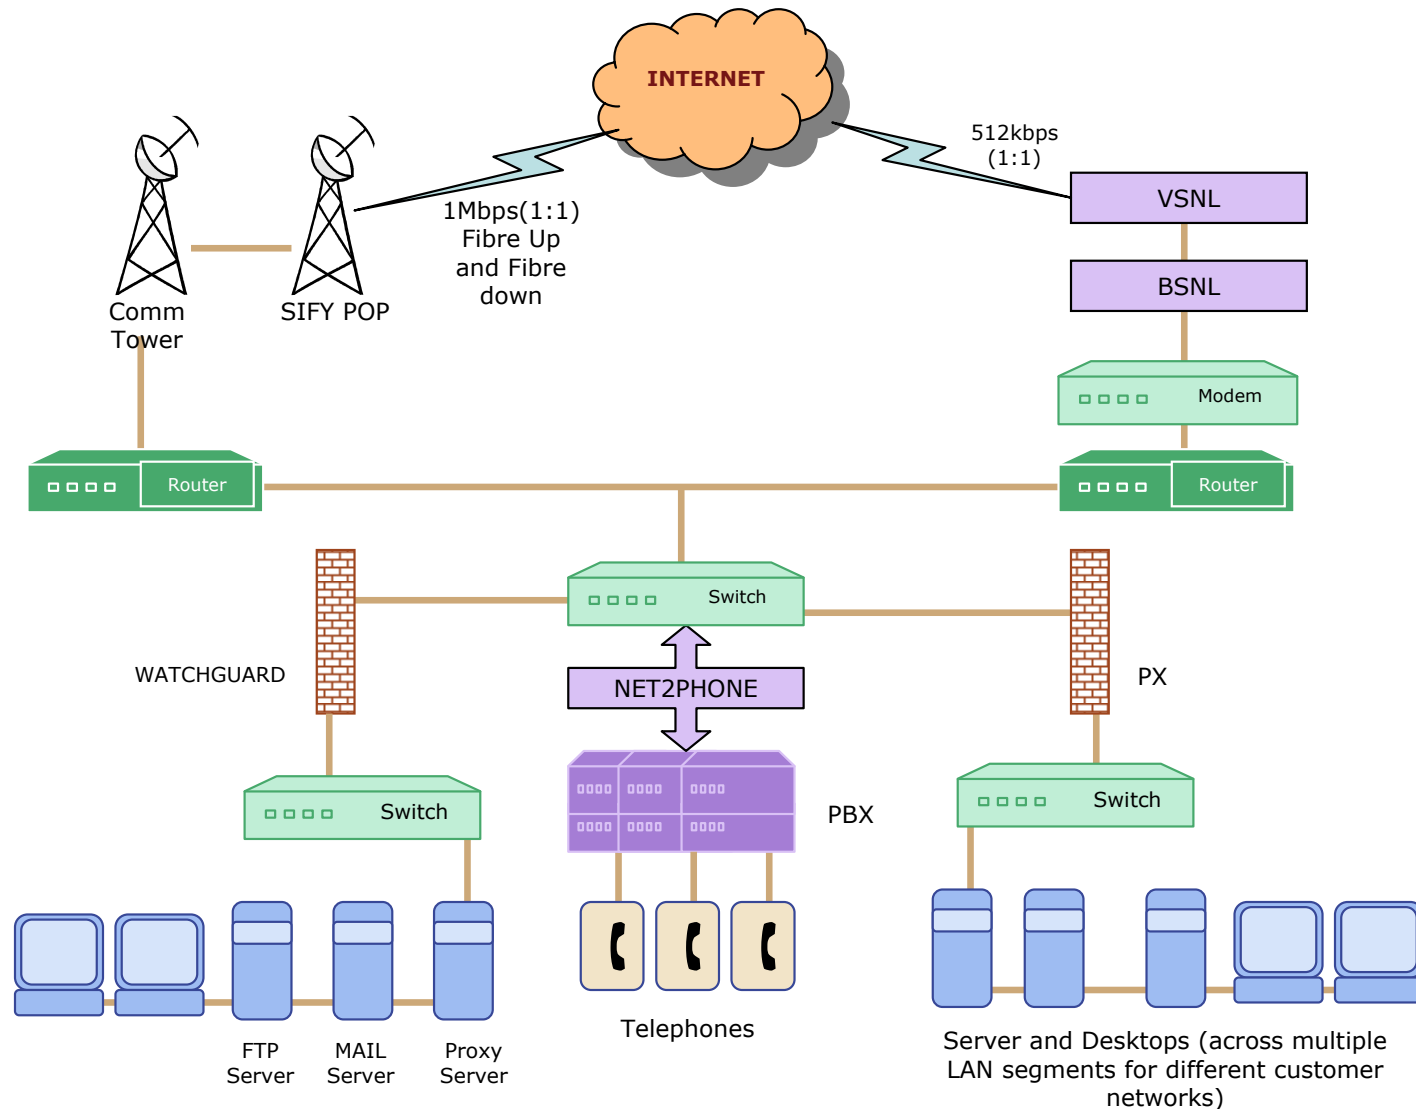

- ❑ Allocation of expert resources towards solving specific client needs at the offshore base
- ❑ ODC model is comprised on the ODC head, project managers, developers, and an additional unit of complimentary function experts
- ❑ Timely ramp up/down of resources as per clients' requirements
- ❑ Typical project engagement
 - ❑ Types of services
 - ❑ Service execution process flow
- ❑ Typical development/maintenance/enhancement engagement
 - ❑ Requirements elicitation
 - ❑ Execution
 - ❑ Build and release management
- ❑ Transitioning deliverables to the onsite team

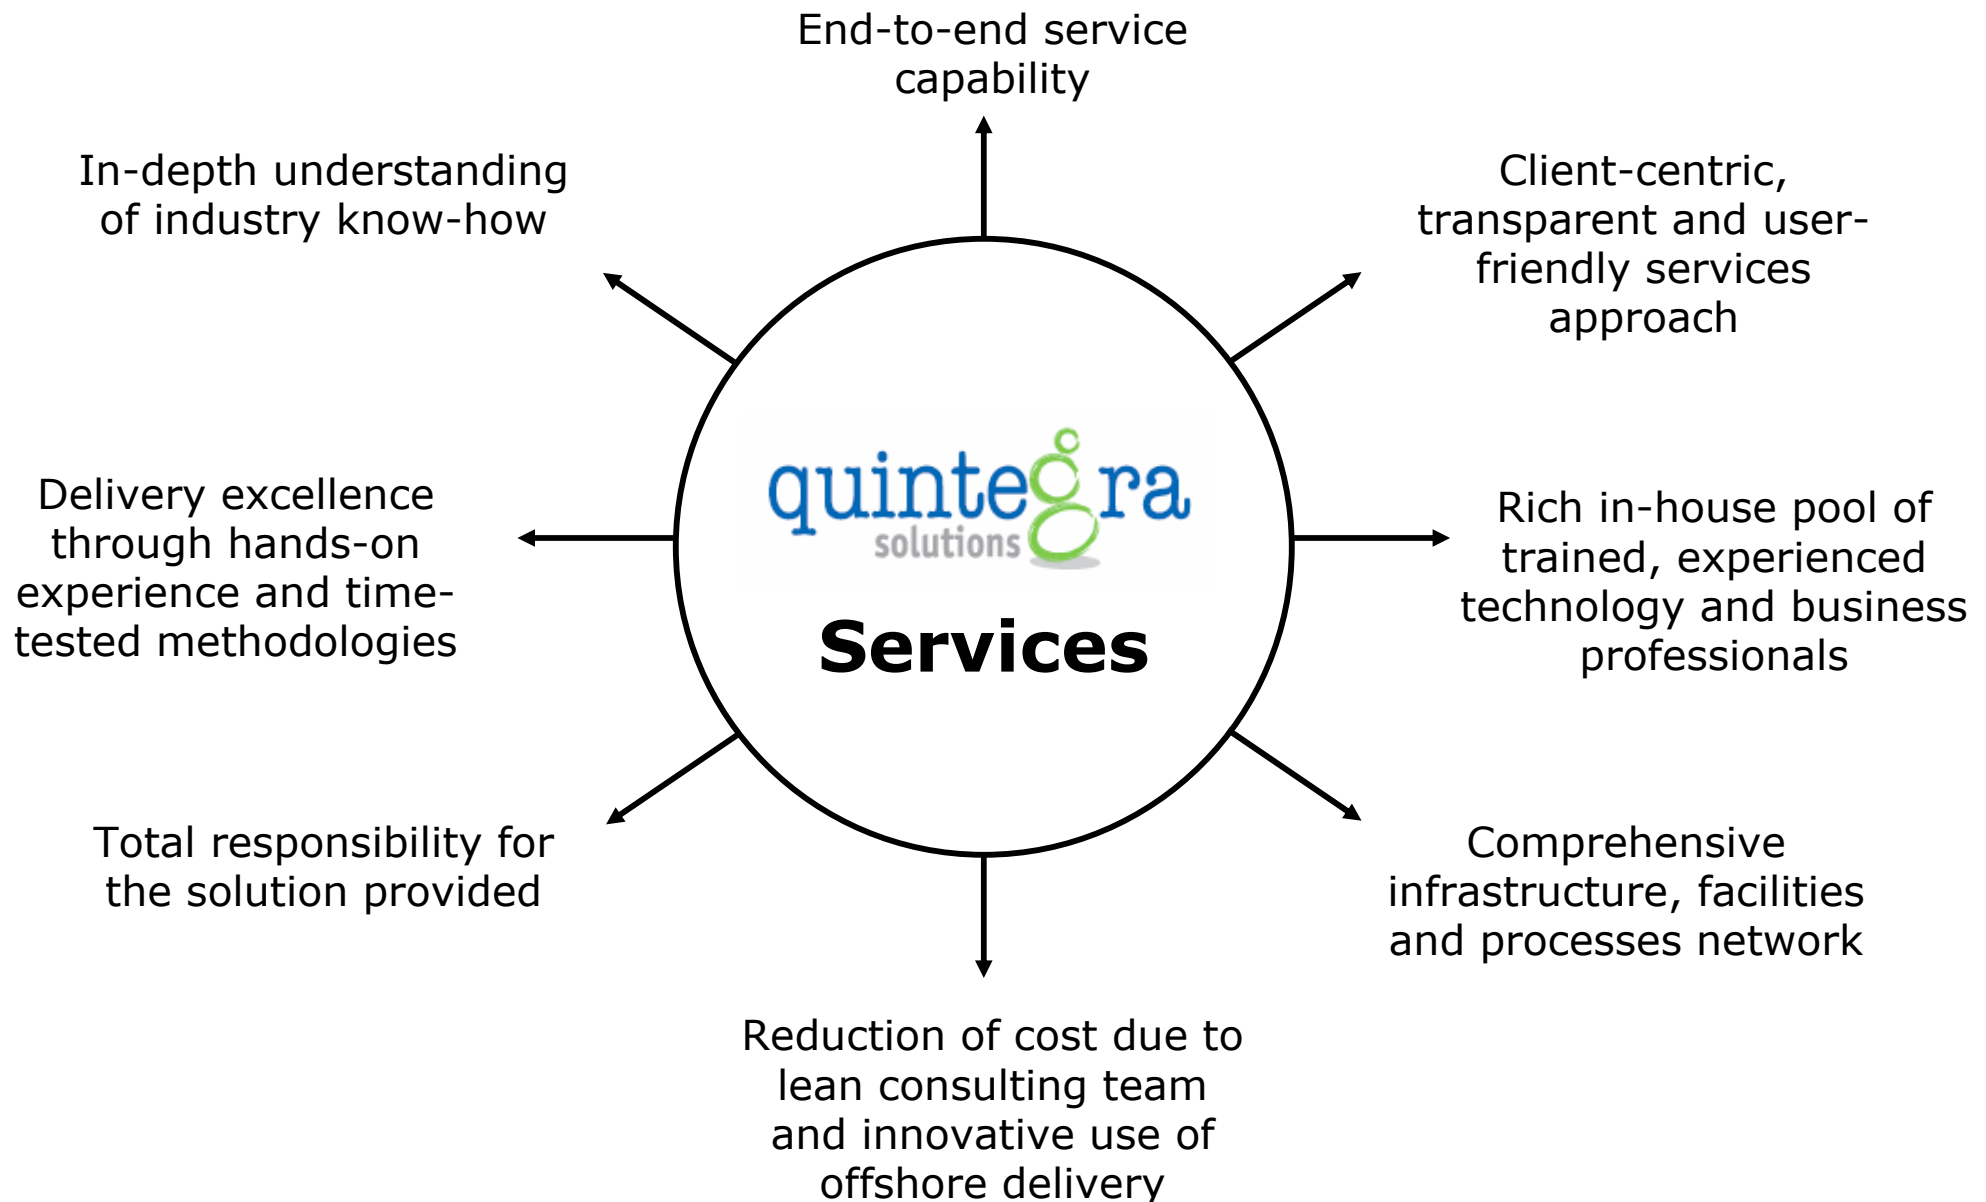

Client Motivation: An engagement approach which is more amenable to off-shoring with fast resource ramp up/down, exclusivity of skilled resources and lower total cost of ownership

Information Technology Network

- ❑ State-of-the-art development centers in Chennai and Bangalore capable of executing large and mission critical assignments
- ❑ Redundant networks and remote data storage for fail-proofing and business continuity
